

LASERCHASER
FOR THE PROFESSIONAL

www.laserchaser.ie

INTRODUCTION

The Laserchaser is a wall chaser with a 10year pedigree in terms of rugged reliability and performance in all applications from block-work to mass concrete.

It will exceed your expectations in terms of speed of cut, dust extraction and blade life.

Designed around powerful grinder motors supplied by world-class brands such as Hitachi, Makita, AEG, Bosch and DeWalt, the Laserchaser 180 housing is manufactured from rugged die-cast aluminium, which is tough but light in weight in order to reduce operator fatigue.

Benefits

- Cuts ceiling to floor - supporting weight of machine and reducing operator fatigue
- Sealed housing ensures dustless operation
- 2000-3000W motors c/w 180mm blades for fast, efficient cutting
- Standard motors from world-class manufacturers- minimal service / maximum output
- Anti-Vibration rating on specific models

Technical Specifications

Blade Diameter:	180mm
Blade Bore:	22.23mm
Maximum Depth of cut	35mm
Maximum Width of cut	50mm
No load speed	6600rpm
